## *MDOT traffic update: Work on I-475 progressing*

Flint, Michigan. ---

The Genesee County Road Commission is forwarding the following information from the Michigan Department of Transportation as a courtesy to them and to motorists in Genesee County.

*“We are making progress in on the I-475 reconstruction project, but the rains have slowed us down.*

*We are trying to open one lane of NB I-475 from the I-75/I-475 split to I-69 in the near future.*

*We are striving to open the lane on NB I-475 as early as this Saturday June 12, 2010, but the rains have not helped out. If it does not happen Saturday June 12, the next best estimate to open one lane is Monday June 14.*

*With the opening of one lane of NB I-475 to I-69, we will also be opening the ramp from Hill Road to NB I-475.*

*When we open up this lane, we will then be closing the rest of SB I-475 from Hill road south to the I-75/I-475 merge.*

*Once SB I-475 is completely closed between Atherton and I-75, we will also be closing the EB Hill Road on Ramp to SB I-475. The posted detour for this ramp closure is EB Hill Road to Dort Hwy. South on Dort Highway (M-54) to I-75 interchange.*

*These dates are tentative due to the rain we are currently getting. This project is ongoing so watch for additional updates. Message boards will have up-to-date traffic changes and closures. If you have any questions, please contact Dewane Petzold, Phil Sekela or Armando Lopez Jr. at the Davison Transportation Service Center at 810-653-7470.”*
