## **Repair work on Holly Road ramp to NB I-75 in Grand Blanc Township RESCHEDULED for Wednesday night**

Flint, Michigan. ---

**The Genesee County Road Commission** announces that circumstances beyond their control have forced the rescheduling of work on the entrance ramp from Holly Road to north bound I-75 (Exit 108) in Grand Blanc Township, as well as the north bound right lane and the south bound left lane on I-75 from Holly Road north about for about a ¼ mile. The ramp and lane closures are necessary to conduct repair operations.

To minimize disruptions to the morning commute the work will be done at night. The ramp and lanes will be closed from approximately 7:30 PM Wednesday August 25th, until about 6:00 AM Thursday August 26<sup>th</sup>. The Road Commission also points out that they will have to close this entrance ramp one additional day/night in the near future to complete this project. As much notice as possible regarding this additional closure will be given. For more information please contact Assistant Maintenance Director Fred Jackson at 810-767-4920 ext. 256.

Motorists are asked to slow down and proceed with caution in this and all work zones.
