Repair work on Holly Road ramp to NB I-75 in Grand Blanc Township to close ramp again Tuesday night

Flint, Michigan. ---

The **Genesee County Road Commission** announces that the entrance ramp from Holly Road to north bound I-75 (Exit 108) in Grand Blanc Township **will be closed again tonight, Tuesday, August 31th** to complete repair operations begun last night.

Assistant Maintenance Director Fred Jackson explained that the repairs that are necessary simply require more time to complete. "When we got into it we found more erosion damage than we had any reason to anticipate, to the extent that the work could not be done in one night. Although we will have to close it again tonight to complete the repairs, we will be able to keep the ramp open for daytime traffic on Tuesday".

To minimize disruptions to the morning commute the work is being done at night. The ramp will be closed from approximately 7:30 PM tonight, Tuesday August 31th, until about 6:00 AM tomorrow, Wednesday September 1st.

For more information please contact Assistant Maintenance Director Fred Jackson at 810-767-4920 ext. 256.

Motorists are asked to slow down and proceed with caution in this and all work zones.
