

Signs in the Right-of-Way of Public Roads

Monday June 23, 2008, 9:18 AM

MEMORANDUM

Date: June 29, 2008

From: John Daly
Manager Director

To: All Township Supervisors and Clerks

Re: **Signs in the Right-of-Way of Public Roads**

I am again requesting your assistance in removing signs being placed illegally within the right-of-way of public road in Genesee County. Further, any signage that obstructs the clear vision triangle at intersections should to be removed as well. As primary and general elections approach this year, the problem is becoming more acute. Please post the enclose notice of Sign Removal Policy at Township and Party offices until December 31, 2008, and if possible, distribute the notice to all local candidates, their election committees and workers.

Commencing July 21, 2008, the Road Commission will commence the removal of any signs placed illegally in the right-of-way of public roads under the jurisdiction of the Genesee County Road Commission. It is hoped that compliance with this memorandum will cause the illegal placement of signs in the right-of-way of public roads. This, in turn, should significantly reduce the amount of time Road Commission employees have to spend removing signs rather than maintaining roads.

If you have any questions concerning this matter, please contact me at the following telephone number: 8101767.4920. General information concerning the placement of signs and other items in the public road right-of-way can be found at our web site www.gcrc.org.
