2017 Chip Seal Program Continues in Davison, Richfield & Genesee Townships

Flint, Michigan. ---

The Genesee County Road Commission announces that the 2017 Chip Seal Program will continue on the following roads on Thursday, July 13, 2017:

1. Irish Road from Lapeer Road to Bristol Road in Davison Township;
2. Davison Road from Cummings Road to Davison city limits in Davison Township;
3. Richfield Road from M-15 to Victoria Station in Richfield Township; and
4. Belsay Road from Potter Road to Richfield Road in Genesee Township

The roads will be closed to through traffic, excluding school buses and emergency vehicles, from approximately 7:00 a.m. until approximately 7:00 p.m. Thank you for your patience.

Please contact Darold Spencer (810) 767-4920, ext. 277 if you have questions.

Chip seal is a pavement surface treatment that combines a layer of asphalt with a layer of fine aggregate. In Genesee County, chip sealing is typically used on 2-lane open ditch roadways. It is less expensive than asphalt resurfacing but not as long lasting. Its main purpose is to seal the fine cracks and prevent water intrusion into the base and subgrade. This provides 3 to 5 years of service life. The Road Commission expands on this procedure by patching areas with asphalt to provide some structural strength and smoother surface to the roadway, prior to application of chip seal.

Please slow down in work zones, for your family and ours.
