

# **Notice of Road Construction**

## **Ottawa Hills Subdivision, Road Reconstruction Project**

### **Project Summary:**

**This project consists of asphalt resurfacing, curb and storm sewer repairs, water main installation throughout the Ottawa Hills Subdivision**

### **Project Dates:**

Proposed Start Date: June 22, 2009.

Proposed Completion: November 25, 2009.

The dates above are based on the construction progress schedule. Changes may occur due to improved productivity or severe weather conditions.

### **Traffic Restrictions:**               **\*\*\*Expect Delays\*\*\***

The contractor is directed and will attempt to maintain one lane of traffic during construction operations. However, local traffic may be required to stop and wait until the roadway is cleared. Please be patient. For your safety and the safety of the construction workers, you may be directed to take an alternate route in certain cases.

### **Mailboxes:**

Mailboxes may be relocated temporarily during construction. We will keep you notified as to the location of the temporary boxes.

### **Sprinklers, Landscaping, and other Personal Items in the Right of Way:**

**Repair and relocation of personal items such as sprinklers within the Right of Way is the responsibility of the landowner.**

Should you have sprinklers or other items in the Right of Way please call to determine if you need to relocate them. If your sprinkler system will be affected, any parts you wish to save should be removed and the lines should be cut and capped at the Right of Way.

### **Parking:**

Please do not park at the end of your driveway nearest the road while construction is underway. This will allow the contractors to do their work in a timely manner. If you need assistance in determining where to park please ask one of the workers.

### **Sump Leads:**

Please contact the following number should your sump pump lead discharges to the road so that we may connect them to the storm sewer system during construction of this project.

If you have any questions please feel free to call us at the Genesee County Road Commission.  
Phone 810-767-4920 at extension 232.
