## **MDOT begins M-15 resurfacing project**

**Davison Twp., Michigan. ---**

**The Michigan Department of Transportation (MDOT)** will begin its M-15 resurfacing project on Monday, May 1. There will be lane closures and traffic shifts throughout the project. Work includes improving intersections and widening the roadway to add a center turn lane from Potter Road to Richfield Road. Crews will also replace the culvert at the Bird Drain and improve the sight distance at M-15 north of Coldwater Rd. The project is expected to end in September of 2023. The work is part of a \$11.3 million investment to resurface more than seven miles of M-15 in Genesee County. Please contact the Michigan Department of Transportation Davison TSC at (810) 653-7470 if you have questions.

**Note:** Work will not take place from May 5-7.
